## RECORD ATTENDANCE MARKS CLOSING SISTERHOOD MEETING

### MRS. JACOB RUDD ELECTED PRESIDENT

"Thrilling" is the only word to aptly describe the closing meeting of the Sisterhood, held last Monday. Such trite terms as "grand", "lovely", "enjoyable", "interesting", might also be applied. But none would be as expressive as "thrilling".

After the President, Mrs. Alpert, had extended profuse thanks to Mrs. Maxwell Shapiro, who offered the hospitality of her home in a most gracious manner, reports of the various committees were given. The Treasurer's report was so encouraging that a motion was made and unanimously carried that an additional scholarship be awarded the Ramaz Academy.

Mrs. Joseph H. Lookstein, Chairman of Membership, gave her report, stating that eighteen new members had been added to the roster this season.

Mrs. Alpert then gave her report, beautifully written and exceedingly well-delivered. She described the many and varied accomplishments of the organization and expressed her appreciation to all those who had assisted her during her three years of leadership. Tears dimmed the eyes of many as she concluded her report with a firm resolution to continue her interest, assistance and cooperation and with a sincere prayer for the new regime to grow from "strength to strength". At the conclusion of her lucid report, Mrs. Alpert asked for the slate of officers prepared by the Nominating Committee. The following were then nominated and unanimously elected: President, MRS. JACOB RUDD; Vice-President, MRS. GEORGE JACOB; Treasurer, MRS. IRVING SHEINBLUM; Corresponding Secretary, MRS.

ISIDOR GIVNER; Recording Secretary, MRS. HARRY ETRA. Mrs. Rudd, as spokesman for the newly-elected officers, thanked the members for the confidence evidenced in them, and promised full cooperation, and expressed the hope that she would be able to follow the precedent set by the outgoing President. Mrs. Rudd, in the name of Sisterhood, presented Mrs. Alpert with a beautiful silver platter, in recognition of her able leadership.

The guiding head of the Sisterhood, Rabbi Lookstein, was then called upon to speak. The Rabbi spoke of the necessity of the Jew awakening from his lethargy, from his smugness. In the light of what is happening to hundreds of thousands of our co-religionists, we dare not remain untouched, indifferent, calloused. The picture the Rabbi painted was dark and discouraging. What we need, the Rabbi emphasized, is courage, faith! Without it we are doomed. With it, we can and will survive! The Rabbi spoke of the growth of the Ramaz Academy, from the time of its inception, three years ago, with six children, to the present status with an enrollment of 63 students. He complimented the Sisterhood for the part it had played in the life of this unique institution.

The guests were then invited to partake of delicious refreshments, and, while thus engaged, it was announced that five new members had been signed up. Such was the enthusiasm of the gathering. Any wonder it was called "thrilling"?

## MEN'S CLUB NEWS

The origin and history of hypnotism throws considerable light on a not unimportant division of the medical as well as the religious experience of man.

Often in a particularly perplexing mental or physical disturbance hypnotics has been part of the process by means of which first a diagnosis has been made and then eventually a cure effected. To safely operate, surgeons have many times resorted to the hypnotic state in place of giving an anesthetic. The theory and knowledge of sensory perception has made rapid strides through the employment of this method. The first progenitor of psychoanalysis procured his initial practical results by means of hypnotism. To-day millions of people follow as a religion the teachings of Mary Baker Eddy—the founder of Christian Science. Her contact with hypnotic power and its sister study, Mesmerism, unquestionably greatly influenced her in the formulating of her widely accepted spiritual concept.

It is most natural, therefore, that there is tremendous public interest at the present time in this far-reaching subject. Indeed this might well be called a Command Performance! Dr. A. P. Link is preeminently qualified both to lecture on and to demonstrate the effectiveness of this curious phenomenon.

The LADIES are invited. Collation will be served as usual.

### Personals

The female of the species may be deadlier than the male but nevertheless we think their presence will make this, a livlier meeting.

\* \* \*

Our membership list and nature are akin—both are blooming and growing in the Spring, tra là.

At this scientific meeting there will be no missing Link (let us hope).

\* \* \*

Our good Dr. Heckler is no mere weather prophet but he predicts stormy times ahead if the Men's Club "un-stags" its meetings.
